SUPPLEMENTARY INFORMATION:

Information Collection Request Title: HRSA Telehealth Outcome Measures

OMB No. 0915-0311 – Revision

Abstract: In order to help carry out its mission, the Office for the Advancement of Telehealth (OAT) created a set of performance measures that grantees can use to evaluate the effectiveness of their services programs and monitor their progress through the use of performance reporting data.

Need and Proposed Use of the Information: As required by the Government Performance and Results Act of 1993 (GPRA), all federal agencies must develop strategic plans describing their overall goal and objectives. The Office of Rural Health Policy, Office for the Advancement of Telehealth (OAT), has worked with its grantees to develop performance measures to be used to evaluate and monitor the progress of the grantees. Grantee goals are to: improve access to needed services; reduce rural practitioner isolation; improve health system productivity and efficiency; and improve patient outcomes. In each of these categories, specific indicators were designed to be reported through a performance monitoring website.

Likely Respondents: Telehealth Network Grantees.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the

purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

Total Estimated Annualized Burden - Hours

Form Name	Number of Respondents	Number of Responses per Respondent	Total Responses	Average Burden per Response (in hours)	Total Burden Hours
Performance Improvement Measurement System (PIMS)	700	2	1400	7	9,800
